EXPERIENCE

Bizedge, lagos, Nigeria — *Frontend Engineering*

AUGUST 2022 - PRESENT

- Developing and maintaining front-end components of websites and web applications using HTML, CSS, and JavaScript.
- Proficiently utilize version control tools such as GIT and project management tools like Click-UP to streamline development processes.
- Working closely with back-end developers, designers, and other team members to ensure seamless integration of front-end and back-end components.
- Proficiently employ cutting-edge technologies including ReactJS, Material UI, React-hooks, React-query, jest, and storybook in the creation, testing, and documentation of user-friendly front-end interfaces. This encompasses both the affiliate software and the internal administrative tool.

Verdant, Remote — *Frontend Engineering*

JANUARY 2023 - PRESENT

- Collaborating with designers to translate design concepts into functional and interactive user interfaces.
- Working closely with backend developers to integrate frontend components with server-side API.
- Utilizing data visualization tools such as ECharts to present data in an insightful and user-friendly manner.
- Conducted thorough testing and debugging to ensure the reliability and performance of frontend applications.
- Developing and maintaining frontend components using React.js, React Query, Redux, and other relevant technologies.
- Participating in the planning, execution, and delivery of software development projects using project management tools like Jira.

TECHNICAL SKILLS

Html5,CSS3, JavaScript.
Tailwind & SCSS
NextJs & ReactJs

React Testing Library & Jest

Typescript,

API(REST) & GraphQl

Git & Github

Node & Prisma

Redux & Zustand

Webpack & Vite

PROFESSIONAL SKILLS

Critical thinking skills and excellent written and oral communicaiton skills.

Strong knowledge of responsive web design and front-end frameworks

Excellent leadership and team management skills to effectively motivate others.

Able to manage multiple tasks and projects simultaneously, priortize effectively and meet deadlines.

LANGUAGES

Yoruba, English

989 WORKSPACE, (Contract) — *Frontend Engineering*

SEPTEMBER 2022 - JULY 2023

- Utilized my strong proficiency in React.js to design and develop user interfaces for our web applications, ensuring they are responsive, intuitive, and efficient.
- Implemented state management using Redux and Redux Toolkit, ensuring data flow and application state are well-organized and optimized for performance.
- Integrated external data sources and APIs, particularly connecting our web applications with our backend REST API for seamless data exchange.
- Led the integration of payment gateways like Paystack to facilitate in-app payments, ensuring a secure and userfriendly payment process.

GiftFlex, (Contract) — *Frontend Engineering*

MARCH 2022 - AUGUST 2022

- Succeeded in building reusable components using ReactJs and Typescript.
- Developed and maintained high-quality, responsive web applications and websites. · Implemented interactive and dynamic features using JavaScript and related frameworks.
- Wrote clean, semantic HTML and CSS code, ensuring compatibility with multiple browsers and devices.
- Collaborated with UX/UI designers to translate design mockups into functional, visually appealing web interfaces.
- Used version control systems such as Git to manage and track changes in code, collaborating with team members.

EDUCATION

Ladoke Akintola University of Technology, oyo, Nigerial — *Bachelor of Technology - Computer Science*

2016 - 2022
